

REFERRALS

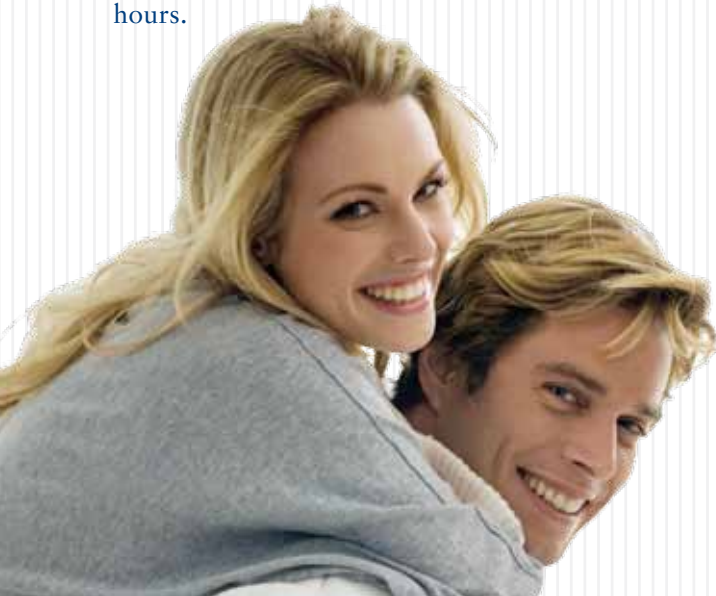

You must have a valid GP referral to take part in the ADHD Program. Most GP referrals expire after 12 months, however you can ask your GP to issue an indefinite referral. It is the patient's responsibility to ensure that referrals are current.

MULTI-MODAL TREATMENT

Dr Shub's ADHD Program is limited to medication management, however he does recommend multi-modal treatment and can provide further information, referrals and recommendations for a wide range of complementary treatments.

NEED MORE INFORMATION?

Please send your enquiries via email to danny@dannyshub.com.au as we have limited reception hours.

DR SHUB OFFERS A LIMITED ADHD TREATMENT PROGRAM, WHICH ESSENTIALLY INVOLVES MEDICATION MANAGEMENT, WITH AN ANNUAL REVIEW OF PROGRESS. THE PROGRAM IS LIMITED TO PATIENTS 16 YEARS AND OLDER WITH UNCOMPLICATED ADHD AND NO SIGNIFICANT OTHER CONCERNS THAT NEED MORE REGULAR TREATMENT.

HOW IT WORKS

- Patients attend an annual consultation with Dr Shub on one of the specified ADHD Clinic dates, during which medication, dosage, effectiveness and any other concerns are discussed
- A six-month script is issued at this appointment
- A second six-month script will be posted to your nominated address (home or pharmacist) two weeks prior to the expiry of your initial script
- In the interim, patients are able to access Dr Shub's email advisory service to touch base with any concerns about dosage calibration, side effects and other matters.

ANNUAL CONSULTATIONS

Annual consultations must be scheduled in advance and take place during one of Dr Shub's monthly ADHD Clinics. Please note, you must attend an annual consultation or Dr Shub will not be able to continue to prescribe medication.

ADHD CLINIC DATES

Dr Shub holds a monthly ADHD Clinic during which annual consultations take place. A list of the ADHD Clinic dates is published on the website every year.

When you book your annual consultation you must tell the receptionist that you are part of the ADHD Program and need to book in to the ADHD Clinic. Make sure that you book in to the Clinic that takes place the month your script is due as scripts cannot be issued more than one month in advance of their due date.

Please note that if you do schedule an appointment outside the specified ADHD Clinic times, you will not be able to be issued a script and will need to rebook within Clinic times.

EMAIL ADVISORY SERVICE

During the year patients are able to access Dr Shub's email advisory service to discuss any concerns and to request assistance with other matters including:

- Letters to authorise taking medication overseas
- Liaison with pharmacists (authorisation of early release, confirmation of scripts etc)
- Liaison with GPs regarding Drivers' License medicals (if required)
- Confirmation of registered and legal amphetamine use as needed by workplace drug testing requirements (if applicable)

2013 FEES

The annual fee for participation in the ADHD Program is \$650.

This includes a bulk-billed annual review with Dr Shub, medication management and script issuing for the 12-month period, as well as access to the email advisory service. You will be sent an annual invoice, which must be paid before consultations can be scheduled or scripts issued.

ADDITIONAL APPOINTMENTS

The annual management fee covers one consultation per year, as well as ongoing access to Dr Shub's email advisory service. In the event that an issue arises that cannot be addressed via email and you need to make an additional appointment with Dr Shub, this will be billed at his standard consultation rates.
